User Stories

As a user, i want a fast way to look at all the features of the the iphones.
- When clicking on any iphone the website will list several features.

As a user I want to be able to see all the different iphones displayed so that I can compare their features.
- At the home screen for the different iphones were displayed as well as other apple related products.

As a user I want to be able to view the different sizes of each iphone so that I can determine which ones are more portable.
- After clicking on one iphone I was able to see how each of the other iphones compared with one another based on size.

As a user, i want to activate my new iPhone with my current cell provider so i won't have to do it in person.
- When checking out they apple ask what carrier the user would like to set the iphone up with.

As a user, I would like see what accessories are available for my new iphone.
- Several places on the website it show accessories that pair with the iphone.
- When checking out apple asks if you would like to add any accessories to your cart.
